\$110,461.02.

SECRET POLITICAL SOCIETY.

Discovery of Organizations in Ha-
makua District.

A short time since it got rumored
around the district of Hamakua,
Hawaii, that secret meetings were
being held by a number of natives.
Under orders from Deputy Sheriff
Lyman, police officer Thomas, on
learning there was to be a meeting
at Waipio, went to that place. He
entered the room and demanded the
books and papers from the secretary.
In the books were found a number
of certificates, and it was found
there were 61 members. There was
a committee, names unknown, and
the members swore to fulfill any
order whatever issued by this com-
mittee. Letters have been received
and also enough information to show
that J. K. Kaunamano was at the
head of the affair. The preamble
compelled all members and candi-
dates for the elections if elected to
do anything the committee desired.
It was also found that a similar
organization existed at Kaala in that
district.

KAHALEWAI DISCHARGED.

In the Police Court this morning
Kahalewai, late Captain of the
Household Guards, was brought up
on a charge of treason. Mr. F. M.
Hatch appeared for the prosecution
and stated that from instructions
from the Attorney-General he asked
that a nolle prosequi be entered
against the defendant. The evi-
dence was not strong enough to hold
the defendant. The Court entered
a nolle prosequi and discharged Kahale-
wai. Paul Neumann appeared for
him.

AN INTERESTING SAMOAN.

Mrs. Lauli Willis, the Samoan
wife of A. A. Willis, an absconding
contractor from San Francisco sup-
posed to be in these islands, has
gone East as caretaker and inter-
preter to the Samoan troupe of
dancers lately here. The showman
had sent the chief of the band back
to Samoa, on account of his inordi-
nate fondness for whisky, upon
which the men maintained and Mrs.
Willis was employed to pacify them.
Succeeding in this as no one else
could, and being without funds to
join her husband as he desired in
Australia, she accepted the regular
engagement above noted. The San
Francisco Chronicle says Mrs. Lauli
Willis is well-educated, ladylike,
and is the authoress of an inter-
esting book on "Lauli, a Daughter of
Samoa."

Wall on Liliha street.

The "Bulletin Weekly Summary"
is out to-day with a complete resume
of local and island news.

The steamer Wailanae has been
laid up for repairs and an overhaul-
ing. Her decks are to be caulked.

Three sailors who deserted from
the bark Jas. L. Harway were taken
on board this morning by the police.

CAPT. Campbell of the Wailanae
left on the W. G. Hall this morning
for a trip to the Volcano for the ben-
efit of his health.

THERE will be a baseball game
played on the league grounds on
Thursday the 22d, between the teams
of the U. S. S. "Nipsic" and "Alert."
Game called at 2:30 p. m. sharp.

The embroideries and lace at N. S.
Sachs' store are attracting a great
deal of attention, and no reason why
they should not, considering the im-
mense assortment and low prices.

Miss Birch Fanning will open her
kindergarten school Monday, Septem-
ber 2d, at No. 182 King street.
Application for admission should be
made at once to Miss Fanning at
that address, and she will be pleased
to show samples of work.

CHARLEY Bolabola, the prisoner
who escaped from the gang Monday
morning, was captured this morning
by Police Officer Kamana, near the
Mormon church hiding in a banana
patch. He was taken to the Station
House and safely locked up.

The tug Elen with the cable
schooner C. H. Tupper came into
port this afternoon, the latter anchor-
ing in the stream. Owing to heavy
weather it was found impossible to
commence the laying of the cable
between this island and Molokai.

Messrs. Lewis & White have a
card elsewhere specifying some of
the branches of agency and clerical
work they are as a firm prepared to
undertake. They are both known to
the business public as well qualified
to do all and more than they profess.

The Honolulu Iron Works are
very busy at the present time filling
orders. This morning they shipped
by the W. G. Hall a smokestack and
montijus to Pahala for the Hawaiian
Agricultural Company, and yesterday
the Lelauna took two big boilers to
Honolulu.

On the last trip of the King street
tramcar last evening, one of the
horses attached kicked over the dash-
board, striking driver McDonald's
hand, breaking two bones. He was
attended by Dr. Trousseau and is
doing well, but it will be some time
before he is able to drive again.

Mrs. J. T. White has taken charge
of the Waikiki branch of the Ha-
waiian Hotel. As she won a fine
reputation as a caterer while mistress,
respectively, of the White and Eagle
houses, patrons of the branch may
be congratulated in advance upon
getting good fare and careful atten-
tion.

POLICE COURT PROCEEDINGS.

Kepa, Hanakahi and Kaukahi,
three native boys, were charged with
escaping from the Reformatory
School. As Hanakahi gave himself
up he was ordered to be returned to
the school. Kepa, who had run
away once before, was sentenced to
two months' imprisonment at hard
labor. Kaukahi, whom Mr. Needham
reported had been a good boy of
late, was sentenced to one month's
imprisonment.

Young Wo pleaded guilty to hav-
ing opium unlawfully in possession
and was fined \$50 with one hour's
imprisonment at hard labor. A
nolle prosequi was entered against Ah
Hing for a similar charge.

PICNIC TO PEARL HARBOR.

A large party of ladies and gen-
tlemen went to Pearl river harbor
this morning, some by way of sea,
others overland. The occasion was
a picnic at that place given by Mr.
P. C. Jones in honor of his Ex. H. A.
P. and Mrs. Carter and Mr.
Parker Jones. The stern wheel
steamer Ewa left about nine o'clock
having on board Mr. and Mrs. P.
C. Jones, Rev. Dr. Dwinell and
wife, Mrs. C. W. Ashford, Messrs.
J. D. Schuyler, G. F. Allard, B.
F. Dillingham, Parker Jones, and
H. W. Severance, U. S. Consul-
General; Hon. W. F. Allen, Lieut.
Com. Lyons, U. S. S. Nipsic, Lieut.
Moore U. S. S. Alert, Mrs. S. C.
Allen and a few others. A large
party left about the same time over-
land. Several yachts went down,
including the Hawaii, with Hon.
Henry Waterhouse, Their Excellen-
cies L. A. Thurston and C. W. Ash-
ford on board, and the Spray, with
Commodore J. H. Paty, Justice
Dole, Mr. Tom May and others.
The Helene with Commodore W. G.
Irwin and Mrs. Irwin, Miss Spald-
ing, Miss McGrew, Master McGrew
and others left port for Pearl river
at noon.

When the whole party arrived at
Pearl harbor, the steamer Ewa was
to take them around the lagoon and
show them the sights. Lunch was
to be partaken of at the residence
of Mr. C. A. Brown.

BRITISH ALLEGATION.

The Cruise of the Cormorant: The
Flag Hoisted on the 10th of June.
Prior Occupation

A private letter addressed to a gen-
tleman in this city from an officer on
H. B. M. S. Cormorant was received
on the last Colonial steamer. It is
dated Rarotonga, June 13th, and
gives particulars of the voyage of
the vessel up to that date.

The Cormorant left Honolulu May
22d and touched at Palmyra Island
on Tuesday the 28th. Hoisted the
British flag and fired a royal salute
of twenty-one guns. Not a soul on
the island and no traces of late in-
habitants. About 8 o'clock in the
morning the vessel nearly went on
the reef, the helm was reversed just
in time. The leadman, port side,
gave 16 fathoms, and the starboard
man 2 fathoms. Divers were sent
down at the first opportunity to as-
certain the damage done. They re-
ported a little copper torn off the
keel.

From Palmyra proceeded to
Washington Island, hoisted the jack
and fired another salute of twenty-
one guns. Sixty people were found
living on the island. Sailed for
Fanning's Island, staying only a few
hours. Found everything satisfac-
tory there.

Arrived at Christmas Island June
1st at 6 a. m., and found a small
brigantine there trading, etc. Left
the same day for Jarvis Island,
which was found uninhabited. Hoisted
the flag and fired a royal salute
of twenty-one guns. While at an-
chor here a ship passed under jury
mast bound for Honolulu.

Arrived at Rarotonga June 11th
at 7 a. m. Owing to heavy weather
had to lay outside. Coaled here.
Played a cricket match on the 12th
and got beaten. Play again on the
14th. Leave here on the evening of
the 14th. All well on board.

The following particulars relating
to the islands annexed as above
stated to the British Crown will be
interesting. Some of the facts in-
dicate a prior ownership to that
now assumed.

The first coconaut oil from Wash-
ington Island was brought here in
the schooner Kitty Cartwright by
Harry English, now watchman for
Wildor & Co. The agent was the
late Mr. McLean, father of the
Messrs. McLean of the Inter-Island
Steam Navigation Co.

Mr. Bicknell of these Islands and
Mr. Gregg of Fanning's Island are
the owners of Washington Island,
and have been for the last thirty
years.

In 1855 the American Guano
Company took possession of Jarvis
Island. In 1873 it was taken pos-
session of by one Copeland for the
Jarvis Island Guano Company, con-
sisting of Messrs. F. S. Pratt, E.
P. Adams and others who worked it
out in three years. Three other
islands were taken possession of at
the same time for that company.

NEW UNDER THE SUN.

The Theory that the Earth Has a
Third Motion.

Marshall Wheeler is the author of
the new and startling theory or sci-
ence that the earth has a third mo-
tion. His theory, which is borne
out by all the traces on the surface
of the earth—and the wonder is that
it has never been advanced and
adopted before—is that at certain
regular periods the earth reverses
its position, so that the equator be-
comes the poles and the poles be-
come the equator. At each of these
turns the water is thrown over the
earth, and the nations and conti-
nents disappear in the great oceans,
with only a few exceptions in cer-
tain parts of the earth, while new
continents and new nations rise, in
the march of ages, where the oceans
of former periods rolled. The last
turn brought the continents that
now exist up out of the great waters,
and at the next turn, where we now
live and where the great American
republic flourishes, the oceans will
again roll; the great ice fields of
the poles will be thawed out and run
down over the land under the torrid
zone, and the present tropics will
become solid ice in their new posi-
tion at the poles, thus accounting
for the vast quantities of the re-
mains of tropical animals and plants
found frozen up in Alaska and Si-
beria, and the traces of ice glaciers
in the torrid zone. He maintains
that the earth is not a temporary
body, but a permanent part of the
universe that has always existed and
never will end, and has been washed
over and created anew at regular
periods throughout countless mil-
lions of years, man and all its or-
ganizations having been swept off,
leaving only here and there enough
for seed, and their locations changed
at each turn, and that this pro-
cess will go on forever—a new earth
washed clean and a new deal, at reg-
ular periods throughout eternity.
He is collecting a vast array of facts
gathered from all climes, to prove
this theory, which he thinks is al-
ready established by well-known
facts that cannot be explained in
any other way.—[Eugene City

nolulu, H. I.—having discontinued prac-
tice in Court, will give his views and

cisions, applicable to questions of law

AN INTERESTING LETTER FROM A VETERAN.

As this is Jubilee year it tends to
make one look back and think
of the flight of time, and in this way
I am reminded that I am one of the
veterans in the sale of your valu-
able and successful medicine. I
have sold it from the very first, and
have sent it into every country in
England and many parts of Scot-
land. Well do I remember the
first circular you sent out some nine
or ten years ago. You had come to
England from America to introduce
Mother Seigel's Curative Syrup,
and I was struck by a paragraph in
which you used these words:—
"Being a stranger in a strange land,
I do not wish the people to feel that
I want to take the least advantage
over them. I feel that I have a
remedy that will cure disease, and
I have so much confidence in it that
I authorize my agents to refund the
money if people should say that they
have not benefited by its use."

I felt at once that you would never
say that unless the medicine had
merit, and I applied for the agency.
With a price which I now look back upon
with pride and satisfaction.

Ever since that time I have found
it by far the best remedy for Indi-
gestion and Dyspepsia I have met
with, and I have sold thousands of
bottles. It has never failed in any
case where there were any of the
following symptoms:—Nervous or
sick headache, sourness of the sto-
mach, rising of the food after eat-
ing, a sense of fullness and heaviness,
dizziness, bad breath, slime
and mucus on the gums and teeth,
constipation, and yellowness of the
eyes and skin, dull and sleepy sen-
sations, ringing in the ears, heart-
burn, loss of appetite, and, in short,
wherever there are signs that the
systems are clogged, and the blood is
out of order. Upon repeated in-
quiries, covering a great variety of
ailments, my customers have always
answered, "I am better," or "I am
perfectly well." What I have sel-
dom or never seen before in the
case of any medicine is that people
tell each other of its virtues, and
those who have been cured say to
the suffering: "Go and get Mother
Seigel's Curative Syrup, it will
make you well." Out of the hun-
dreds of cures I will name one or
two that happen to come into my
mind.

Two old gentlemen, whose names
they would not like me to give you,
had been martyrs to Indigestion
and Dyspepsia for many years.
They had tried all kinds of medi-
cine without relief. One of them
was so bad he could not bear a
glass of ale. Both were advised to
use the Syrup and both recovered,
and were as hale and hearty as men
in the prime of life.

A remarkable case is that of a
house painter named Jeffries, who
lived at Penhurst, in Kent. His
business obliged him to expose him-
self a great deal to wind and weath-
er, and he was seized with rheuma-
tism, and his joints soon swelled up
with dropsy, and were very stiff
and painful. Nothing that the doc-
tors could do seemed to reach the
seat of the trouble. It so crippled
him that he could do hardly any
work, and for the whole of the win-
ter of 1878 and '79, he had to give
up and take to his bed. He had
been afflicted in this sorry way for
three years, and was getting worn
out and discouraged. Besides, he
had spent over £13 for what he
called "doctor's stuff" without the
least benefit. In the Spring he
heard of what Mother Seigel's Cur-
ative Syrup had done for others and
bought a 2s. 6d. bottle of me. In
a few days he sent me word he was
much better—before he had finished
the bottle. He then sent me for
a 4s. 6d. bottle, and as I was going
that way I carried it down to him
myself. On getting to his house
what was my astonishment and sur-
prise to find him out in the garden
weeding an onion bed. I could
hardly believe my own eyes, and
said:—
"You ought not to be out here,
man, it may be the death of you,
after being laid up all winter with
rheumatism and dropsy."

His reply was:—"There is no
danger. The weather is fine, and
Mother Seigel's Curative Syrup has
done for me in a few days what the
doctors could not do in three years.
I think I shall get well now."

He kept on with the Syrup, and
in three weeks he was at work again
and has had no return of the trou-
ble for now nearly ten years. Any
medicine that can do this should be
known all over the world.

Yours faithfully,
(Signed) RICHARD GRAHAM,
Of Graham & Son,
Holloway House, Sunbury,
Middlesex,
June 25th, 1887.

The above wonderful cure of
Rheumatism was the result of the
remarkable power of Mother Seigel's
Curative Syrup to cleanse the blood
of the poisonous humors that arise
from Indigestion and Dyspepsia.

New York Goes Equitable by a Large Majority.

No better example of the estimation in which this great Company is held, can be given, than by a comparative statement of the business done by itself and its chief competitors in their common home, the city of New York. In New York a man can get his information direct from the Home Office of the largest companies, and has more accurate opportunities of judging their respective merits than anywhere else. As a result in the City of New York during the year 1888 the Equitable wrote a larger amount of new business than was written by its Two Largest Competitors Combined. In the State of New York the Equitable wrote \$1,808,431 more Insurance than the aggregate of its Two Largest Competitors Taken Together. It did the Largest Business in the United States, as well as in the World at a time when all Companies were straining every nerve to pass it.

The reason why this universal verdict goes with the Equitable is on account of the Popularity of its Plans and the Promptness and Fairness of its Business Methods. As the Pioneer in reforms its Policies have been and are being extensively imitated by others, a most graceful tribute to their merit.

The primary object of Life Insurance is to provide ready money against death. No Company can approach the Equitable record for promptness in this regard. The New Policy of the Equitable just out is (like a bank draft) a simple promise to pay and is without conditions on its back.
